

EECP effect in Improving Left Ventricular function is presented in 20th World Congress World Society of Cardio-Thoracic Surgeons meeting.

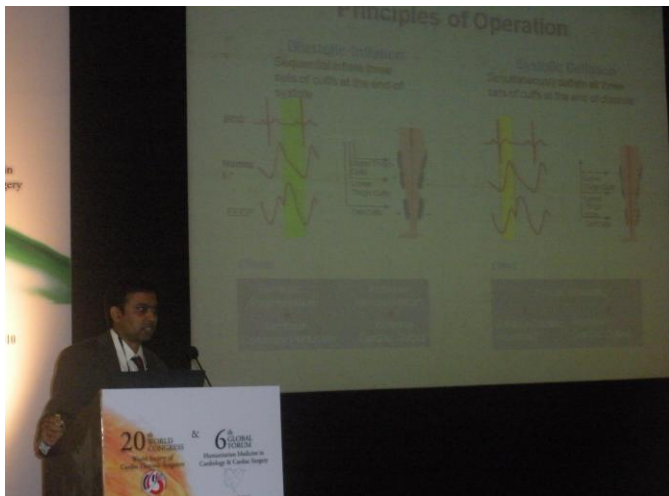

24th October 2010 Chennai. Vaso-Meditech Pvt Ltd is an exclusive distributor and clinical support for EECP and SphymoCor in India.

Vaso-Meditech Pvt Ltd participated in 20th World Congress World Society of Cardio-Thoracic Surgeons meeting in Chennai. Vaso-Meditech booth was well attended by cardio thoracic surgeons across the world. The company discussed its protocol using Short course of EECP therapy prior to High risk CABG procedure in reducing the emergency IABP insertion.

Dr.S.Ramasamy EECP consultant of frontier Lifeline Hospital presented the paper “EECP Reverse the Left Ventricle Remodeling in Patient with Moderate Left Ventricular Dysfunction by Improving Myocardial Perfusion”. He commented that EECP improvement seems to be predominantly due to improved myocardial perfusion rather than altered arterial stiffness. The improvement in ejection fraction is mostly due to reduced end systolic volume.

EECP presentation in the conference shows its acceptance as an adjuvant treatment in patients with coronary artery disease who are not a candidate for revascularization procedure.

Vaso-Meditech booth was attended by renowned cardio thoracic and heart transplant surgeon Dr.K.M.Cherian, Health secretary of Tamilnadu Mr.V.K.Subburaj IAS and Start insurance director Dr.S.Prakash.
